

In 1986 the then Medina Borough Council created a Rest Garden in St. Thomas's Churchyard. A number of damaged headstones were deemed unsafe at that time but they were retained in the Churchyard as paving around the new seats that were installed. Safe or significant headstones were retained, mainly in their original positions, but some had to be resited. This Map has been produced by the Ryde Social Heritage Group based on the work of Mr Jack Wheeler in 1975. The Map can be related to the lists of graves and inscriptions produced by Mr Wheeler. It is a work in progress and additions or alterations will be made if further or more accurate information becomes available to the Group.
