Tragic Climax To Holiday

RYDE YOUTH FELL FROM BOAT, DROWNED

gins

Heard A Splash

Witness heard a splash and ran round to see who it was. He took most of his clothes off and jumped in but Michael Truman had gone. His hat was still on the side of the boat.

"Michael used to be able to swim fairly well, but I could not be certain that he was still able to. The others are all swimmers," he said.

P.c. Jack Hutchison said the deck covering on the boat was of a non-slip material and he found nothing that might have caused the fall. The body was recovered from 14 ft. of water nearly four hours after the accident.

"Enormous Responsibility"

Remarking that an enormous responsibility rested with those connected with the Broads holiday industry, the Coroner urged boat owners to do their utmost to inform visitors of the risks there were, and to show that life-jackets were aboard river craft for their safety. The presence of life-jackets was not in itself enough.

o

Michael, who went to Ryde Secondary School, was a keen sportsman. He had recently recovered from a cartilage operation and was hoping to play football for Binstead next season.

ON

The funeral will take place today (Thursday) at the Zion Chapel, Ryde, at 1.30 p.m.
