PARENTS SAD DISCOVERY

Five months old **Graham KEY** was discovered dead by his parents, Mr. and Mrs. N. KEY, of 11 Adelaide-place, Ryde, early on Friday morning. The baby died during the night in a cot which he shared with his twin brother. The twins had both had colds recently but had recovered and were out in a pram on Thursday. The facts were reported to the Coroner and a post mortem was ordered, but an inquest was dispensed with, death being due to natural causes.
