

Dr William Moore was Inspector General of Army Medical Hospitals and Member of the Royal College of Physicians. He was born 1766 and died in Spring 1832. His son William b. November 1795, alumni Oxon . Other sons were Edward Horatio, my ggf was solicitor in Lymington b. Dec 1801` d. 26 March 1889 and Thomas Barrington Geary Moore Vicar of Broxborne Herts.

Edward Horatio left a letter which I have saying 'the people at Ryde have a portrait of the bishop' referring presumably to William's descendants who stayed on the island, probably William his eldest son. The bishop refers to Bishop John Moore 1646 - 1714, Bishop of Ely. our direct ancestor.
