THE LATE ACCIDENT AT ST. JOHN'S. - Our readers will probably remember the collision at St. John's between one of Messrs. PICKFORD's vans and a wagonette, which resulted in the death of a man named WARDER, who was driving the van at the time. As the whole of the circumstances of the accident must be fresh in the minds of our readers, we need not dwell upon them. Poor WARDER, however, left a widow and a family unprovided for, and a subscription was commenced on their behalf, which has resulted in the handsome sum of £53 11s. 10d. being collected, which, in accordance with our promise, we are happy to acknowledge:
